

JOB DESCRIPTION

Job Title:	Records Archivist
Job Grade/Level:	PIDG/RIM 4
Department:	The Accountant General's Department – A Department of the Ministry of Finance and the Public Service
Reports to:	Assistant Registrar – Document Management
Direct Reports:	N/A

1. STRATEGIC OBJECTIVE:

The Information and Technology Division is responsible for providing support to the Treasury in all areas of operations, facilitating the modernization of fiscal processes through the use of better methods and techniques, and cutting edge information technology. The work of this division improves the acquisition, allocation, utilisation and conservation of public financial resources using automated, integrated, effective, efficient and cost effective information systems.

The Division is responsible for the development and maintenance of the Government's Integrated Financial Management Information System (GIFMIS). It is also responsible for training the AGD's staff as well as staff of the MOFPS and other MDAs in the use and functions of the relevant IT systems, guided by recognized standards and formal policy.

The Division is also responsible for the implementation and maintenance of the AGD's Records Management System (RMS) as part of the overall management system, based on records management principles, to facilitate the management of the AGD's records to meet the AGD's information needs, stakeholders' information expectations, and statutory and fiscal requirements regarding records.

2. JOB PURPOSE:

Reporting to the Assistant Registrar – Document Management, the Records Archivist is responsible for assembling, cataloguing, preserving and managing the Treasury's valuable collections of historical information (records, documents, books, and objects). The incumbent appraises, edits, and directs safekeeping of the Treasury's

permanent records and historically valuable documents, and participates in research activities based on archival materials.

Summary of the broad purpose of the position in relation to Government's goals and strategies:

- To create and maintain accessible archives and databases from which information is readily retrievable, incorporating current advances in electronic information storage technology;
- To organize archival records and develop classification systems to facilitate access to archival materials;
- To prepare archival records, such as document descriptions, to allow easy access to information;
- To preserve records, documents, books, and objects;
- To provide reference services and assistance for users needing archival materials.

3. KEY OUTPUTS

- Relevant technical advice to the Registrar, Assistant Registrar-Documents Management, staff, and other stakeholders.
- Treasury records, documents, and objects preserved.
- Record-keeping systems and procedures for archival research and for the retention or destruction of records.
- Accessible, computer archives and databases from which information is readily retrievable.
- Direct access to archival information and services provided for all key stakeholders including employees and pensioners.
- Document management system integrated with the customer service platform.
- Reference services and assistance for users needing archival materials.
- Exceptional customer service in keeping with the AGDs Customer Service Charter.
- Staff and stakeholders trained in the use of the implemented system(s).
- Compliance with record keeping requirements resulting from legislation, audit rules and other relevant regulations.
- Current databases.
- Periodic reports.

4. KEY RESPONSIBILITIES
